PITSS.CON Customer Success for Oracle FORMS

Point of departure

? As many other members of the Allianz Group, TU Allianz Ploska runs OPUS. Open Product Underwriting System (OPUS) is a core application framework written in Oracle Forms used to provide customised business functionality. The Application contains around 250 Forms and Reports. Because it is a core application the company demands a maximum of security, reliability and performance for their Oracle Forms Application.

Challenge

! Allianz Polska needs to centralize and simplify the administration of their Oracle Forms application. Furthermore the company wants to integrate their application with different interfaces and is looking for a reliable, tool based support. Therefore they need to migrate their Oracle Forms Application from Oracle Forms 6cs to web Forms 10g.
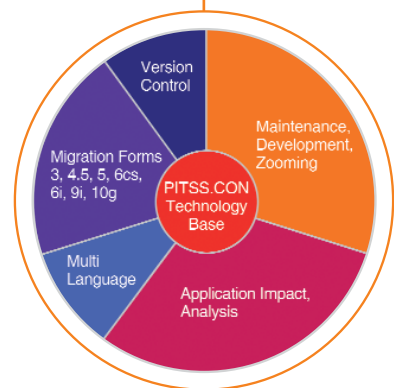

Solution

= Allianz Polska knows PITSS.CON from a road show presentation and was impressed by the comprehensive and powerful functionality the tool offers. They opted for PITSS.CON to migrate their Oracle Forms Application from Oracle Forms 6cs to Web Forms 10g. PITSS.CON offers a brilliant and efficient search engine. It automates code and forms object attribute replacements. PITSS.CON enables automated changes on thousands of attributes and code lines. Due to the great functionality of PITSS.CON Allianz Polska could start with tests earlier than expected. After the migration project the company continues using PITSS.CON as a complex and fast search engine for maintenance and development.

Project schedule

- ✓ November 2006: Analysis of the Forms Application with PITSS.CON
- ✓ December 2006: Code rewrite for Reports
- ✓ December 2006: 1 week test migration with PITSS.CON
